SUMMER LANGUAGE COURSE

For University Students

2014

IVY TUTOR'S

COURSE Overview

Ivy Tutors operates a premier summer academy for discerning students who wish to prepare their education ahead of their academic year. We recognise the importance of a smooth transition for personal, social and academic purposes.

We also understand the prospect of living in a new environment can be extremely daunting. As such, we have tailored a course that is specifically designed for overseas students to boost their confidence in the English language and to experience the British lifestyle through various exclusive activities such as polo matches, horse races and rowing regattas.

OUR TEACHERS - all our teaching staff are qualified and have helped many children gain entrance to top boarding schools as well as Oxford and Cambridge University.

Our summer course is the first step in preparing your academic pursuits in Britain and experiencing its culture. The teaching programme is provided by a staff base consisting of professionally trained teachers. The course will be delivered in an Oxbridge collegial approach which will give the student a flavour of British university life. Outside the classroom, you can take a stroll in the historic town that characterises its heritage. The size of each teaching group is limited to ten students.

OUR ACCOMMODATION - students will stay at Oxford University which offers a superb studying and social environment for the students.

COURSE Structure

A typical day for the student would include English lessons in the morning followed by activities after lunch. You will stay at Oxford University and lessons will be taught on campus. The course has a strong emphasis on conversation although the competencies of reading, writing and listening are also practiced. All our tutors are qualified TEFL (Teaching English as a Foreign Language) teachers.

OUR ACTIVITIES - in partnership with various luxurious brands and exclusive events, our activities are quintessentially British and designed to let the students experience its culture.

Aside from academic results, British education is characterised by its tradition and ethos which we seek to instil in our students. You might be surprised at how important extra-curricular activities are to universities. Our afternoon activities are quintessentially British and are designed to create a rounded learning experience by encouraging self-expression, creativity and individuality in all students. The activities are led by experts in their respective fields and you will have the chance to participate in exclusive events like Henley Royal Regatta, Royal Ascot, polo lessons, music concerts and art exhibitions. These are all places where you will rub shoulders with Britain's high society.

OUR SERVICE - the summer course is the first step to a British education. We offer further academic services including bespoke tuition courses and academic consultancy throughout the year. We are here to help along every single step of your educational life in Britain.

Mr Timothy Li

Tim is the Course Co-ordinator at Ivy Tutors. He was born in China and was educated at St Edward's School, Oxford and Imperial College, London. Tim has witnessed an increasing number of overseas students who despite having outstanding academic achievements have ultimately struggled to adapt to the British way of learning and lifestyle. Tim firmly believes Ivy Tutors' British Summer Academy can bridge the cultural and educational gap and form the foundations for a more rewarding experience.
